

Universal Support Size Update

After an industry-wide pause in production, we are happy to share that cut-sheet paper support sizes (including legal, ledger, and three-hole punch), will be in production again.

Universal Support Sizes are:

UNV24200 (Copy Paper, 92 Bright, 20 lb Bond Weight, 8.5 x 14, White)

UNV28110 (Copy Paper, 92 Bright, 20 lb Bond Weight, 11 x 17, White)

UNV28230 (Copy Paper, 92 Bright, 3-Hole, 20 lb Bond Weight, 8.5 x 11, White)

How does this effect Universal support sizes?

- 70% of Universal support size lanes in the warehouse will have an unprinted box, while 30% will have a printed box with the new Universal design.
- Packaging varies by geographic location. Separate communication with images will be shared.
- Dealer will *not* get to choose between a printed box or a white box.
- There will be NO change to Universal part numbers.
The unprinted box will have a different UPC, however that UPC *will* be tied to the Universal part number.
The printed box will have the same UPC as it exists now.
- Quality and specifications are the same.
- PaperRap mill direct orders, of Support Sizes, will be packaged based on the mill the orders are placed with. (**Supply will be limited due to mill allocation, so PaperRap will be reaching out to mill direct program customers to provide product availability for mill direct orders**)
- Existing Universal packaging will be used first.
“White Box” production – mid August 2022; estimated ETA - mid Sept – early Oct.
“Printed Box” production –Estimated ETA – mid Oct. – early Nov.
- In an effort to simplify our assortment, the below skus will be discontinued:
UNV24200RM
UNV24200PLT
UNV28110RM
UNV95230
UNV96244
