Price Change Notification December 1st, 2026

Due to ongoing tariff activity, geopolitical events (including the conflict in Iran), and escalating ocean and domestic freight costs, our product costs have been directly impacted. To maintain supply stability, RJ Schinner reserves the right to implement immediate price adjustments without advance notice. Should these disruptions escalate further, we also reserve the right to invoke Force Majeure or similar measures to manage or suspend contractual obligations as necessary.

All Price Increases Detailed Below Are Approximations

Due to market conditions RJ Schinner may not be able to honor all orders at pre-increase pricing even if the order is placed before the announced increase. This is due to the allocations placed on us from our suppliers. We will do everything in our power to honor all orders. The best way to ensure pre-increase pricing is to place orders well in advance of these notified price increases. Deductions will not be allowed.

***Deductions will not be allowed. ***
